

Little Arpit, a 3-year-old child from **Shamli, Uttar Pradesh**, is bravely fighting a serious and life-threatening congenital heart disease with a hole in his heart. Doctors have diagnosed him with **CCHD** and advised urgent heart surgery involving **TA + VSD + PS**, in which **three heart valves** need to be implanted to save his life. Due to his weak heart, Arpit often suffers from breathlessness and extreme fatigue, making even simple activities difficult for him.

The estimated cost of this life-saving treatment is **₹60,000**, an amount that is beyond the reach of his family. Arpit's father, **Kuldeep Dathera**, works as a **Raj Mistri (construction worker)** and struggles daily to meet basic household needs. With limited resources and growing medical urgency, the family is unable to arrange the required funds on their own, and every passing day increases the risk to Arpit's life.

We humbly appeal to kind-hearted individuals to come forward and support little Arpit during this critical time. Your contribution, no matter how small, can help save a precious life and give this innocent child a chance to grow up healthy, happy, and full of dreams. Together, we can help mend Arpit's little heart and give him a future he truly deserves.

Save the Child
