

Appeal for Help: Save Little Amarjeet's Life

Amarjeet Kumar is just 1 year old, a tender age when children begin to smile and explore the world, but instead of joy, he is battling a serious heart condition. Soon after his birth, he was diagnosed with **Complete Heart Block (CTGA)**, a life-threatening disease that prevents his heart from functioning normally, making it impossible for him to live like other children. This heartbreaking news has shattered his family, especially his father, Ramchandra Das, who works as a daily wage labourer and struggles to meet even basic needs. Despite all hardships, the family has not lost hope, as doctors at AIIMS, New Delhi, have assured that with timely heart surgery, Amarjeet can recover and live a normal life. However, the estimated cost of the treatment is ₹1.5 lakh to ₹1.8 lakh, which is far beyond what the family can afford.

In this difficult time, Amarjeet needs your support to survive. Your small contribution can help arrange his life-saving surgery and give him a chance to live a healthy and happy life. We humbly request you to come forward and support this innocent child—every donation matters and can bring hope back to his family. Please help us save Amarjeet's life; we will always be grateful for your kindness and generosity.
